

Something stirs in the darkness on the planet Zilith. A team of physicists working on a black INTEL project code named Element has vanished. A SEAL recon team has been inserted to find out why. Lieutenant Jackson and his team must recover an anomalous heavy metal, discovered by a long range geophysical probe on the outer rim of charted space. Stalked by elusive night creatures and hunted by a hunter-killer platoon of Caldarian assassins known as the Black Order Legion, Jackson and his team move toward an ultimate confrontation. Extracted by the battle-damaged HMCS Haida and pursued relentlessly by the Sipedesis, they race for the USS Lexington and Battle Group Six, positioned as a blocking force in front of the main Caldarian Armada. There is one final task to complete. They must penetrate the security perimeter around the Caldarian command ship, the Shimmering Wind, and assassinate the High Admiral.
