

Beloved, I pray that as you read this book you will find Faith, Love, and Hope in these words: By his stripes I am healed. We read this verse in the Bible, yet how many of us really believe? Satan comes to kill, steal, and destroy. This includes our health. Disease prevention is about maintaining a healthy mind, body, and soul yet in today's world we practice disease management with toxic drugs and surgery. We have become a medicated society. I am a Breast Cancer Survivor. I have spent the past two years doing research on both conventional and alternative medicine. What I have learned may shock you. You are being deceived when it comes to both medications and nutrition. I want to share with you a different view that may save your life or the life of a loved one. Inside you will discover: Attitude is everything Forgiving another will allow the flow of life How the lymphatic system works The difference between live and dead foods Toxins that are killing you The many benefits of yoga I take this seriously, and if you read this book, you will too.
